**Technical specifications**

Prikka-Strip is a triple row of pointed cones, moulded from polypropylene with excellent UV weathering resistance. The points are staggered for maximum effect.

Each strip is 500mm long, 45mm wide and 15mm high which delivers maximum deterrent but minimum harm.

The unique double-hinge design allows it to be formed neatly on fence tops, pipes and other irregular surfaces.

**Caution, sharp points**

Use great care when unpacking, fitting or cleaning this product. Keep and fit away from the reach of children.

If the points are too sharp for your intended use, simply blunt them using a rasp/file or a coarse abrasive sanding sheet.

**Customers must satisfy themselves that no harm will be caused by this product and should display a warning notice advising that an anti-intruder device has been fitted.**

PRIKKA-STRIP

PRIKKA-STRIP

**Prikka-Strip**  
The intruder excluder

**Fences**  
Prikka-Strip's unique double-hinge design fits weatherbar profiles.

**Gate tops**  
Prikka-Strip makes gates even more difficult to climb over.

**Walls**  
Prikka-Strip can be fitted side-by-side to increase the effect.

**Pipes**  
Fit Prikka-Strip to external pipes to protect your property still further.

- **The effective, low-cost deterrent against unwelcome intruders.** 
- **Fits to tops of fences, gates, pipes, walls, sills etc.**
- **Designed to deliver maximum discomfort, but minimum harm.** 
- **Unique multi-hinge design allows easy fixing to angled surfaces.**
- **Easy to use – the 500mm x 45mm and 500mm x 100mm strips can be screwed, nailed or glued\*.**
- **Fit side by side to increase effective width on walls, ledges and sills.**
- **Made from polypropylene in a range of colours, Prikka-Strip is weatherproof and durable, re-usable and recyclable.**

\*Many glues and adhesives will not adhere to polypropylene – screwing or nailing is recommended (external quality butyl and solvent-based sealants/adhesives perform reasonably well). Silicone, bitumen, acrylic and water-soluble (nail adhesives are not recommended). The base of Prikka-Strip should be scored or roughened with an abrasive to provide a key for the adhesive.

See overleaf for full range of colours.

**Walls**  
Prikka-Strip's 100mm width allows it to fit neatly to wall tops.

**Fences**  
Prikka-Strip's triple hinges allow it to be fitted over fence tops giving side coverage too!

**Screwing/nailing**

Prikka-Strip can be screwed or nailed (rustproof) using the holes provided (more holes can be drilled if needed).

**Trimming**

Trim to size using a suitable saw. Curves and bends can be formed by immersing in very hot water. Prikka-Strip can also be easily cut to a double or single row strip using the hinge grooves as a guide.

**Gluing\***

Ensure surfaces are clean, dry and free from dust.

Prikka-Strip now has a big brother...

**NEW!**

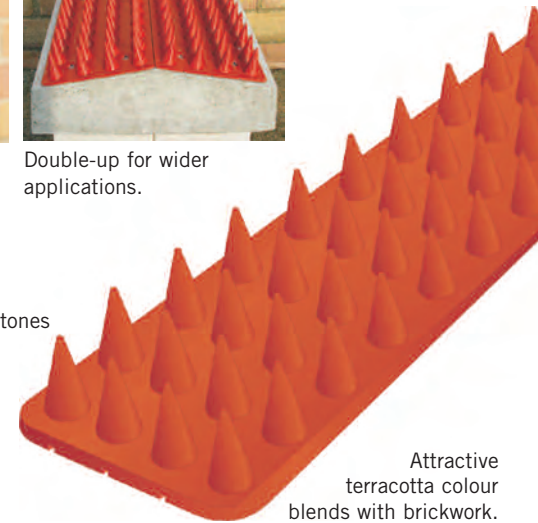

Double-up for wider applications.

**Coping Stones**

Prikka-Brick-Strip's unique hinged design fits coping stones and other angled surfaces.

Attractive terracotta colour blends with brickwork.
